

Complete White Label Package or Co-Branding?

Build your own turn-key solution with the blocks provided by 3dEYE pure cloud video surveillance platform including the admin and video portals, native iOS & Android apps, alarm station and all available integrations and add-ons.

You can co-brand with 3dEYE or purchase the complete white label license that will allow you to present the platform as part of your own solution.

Included Co-Branding

If you use 3dEYE Cloud Platform you can re-brand the web portals by introducing the following modifications:

- ✎ Customize the login pages of the alarm station, video and admin portal by uploading your own logo, background and favicon
- ✎ Set up a custom subdomain to match your own or your customer's /sub integrator's branding
- ✎ Restyle the video portal theme colors, customized emails, and shared page

3dEYE will still be seen in the URL and copyright mentions.

No extra fees are charged for such customization, it is an integral part of the platform functionality overall. Please note that the mobile apps are not customizable in this scenario and your clients will login into 3dEYE-brandedd IOS and Android apps.

You can change 3dEYE brand to your own brand. To do this go to Profile/Branding.

Navigate the branding menu tabs to setup how Admin Portal, Video Portal and other platform elements look for you clients.

You can upload your own logos, change the color & text of notification letters & portals, change urls for admin and video portal.

To enable customization please check the "Enable Portal Branding" box.

Select options that you wish to modify.

To send a test message to email address of your choice input email and click Send Email. A preview of letter design will be displayed on the page.
